

Southern Phone Device Payment Plan Terms and Conditions

Information about this plan

Device Payment Plan

A Device Payment Plan (DPP) provides you with an option to pay for devices by spreading out the cost of a device purchase over a 12- or 24-month term.

When you sign up to an eligible plan, you have the ability to purchase a device without the worry of having an upfront cost.

Contract Period

A DPP is contracted for a 12- or 24-month period (as specified in the relevant Critical Information Summary for your plan).

Early Termination Fees

Early termination fees will apply if you cancel your DPP before the end of the 12- or 24-month term. The early termination fee is calculated by multiplying the monthly device payment fee by the number of months remaining on the contract which is to be paid as a lump sum on your next bill. For example, if you are on a DPP payment of \$12.41/month and you leave 6 months into the 12-month contract, your early termination fee will be calculated as $\$12.41 \times 6 \text{ months remaining} = \74.46 .

Cancelling your eligible plan

If you cancel the plan you connected to with your DPP, you will be charged any applicable early termination fees and any other applicable fees and charges that apply to your plan. If you cancel your plan, your DPP contract will automatically be cancelled, and you will need to pay any applicable early termination fees on your DPP.

Eligibility

Who is eligible and what options are available?

To be eligible for a DPP, you must purchase an eligible device with an eligible plan under the same account. You can use the DPP to pay off your device purchase. For details of eligible plans please speak to our sales or customer service representatives or see our website. All customers must pass our credit assessment to be eligible to use a DPP.
